

ADVENTIST UNIVERSITY OF AFRICA
SCHOOL OF POSTGRADUATE STUDIES
MBA HEALTHCARE MANAGEMENT PROGRAM
SID COHORT

Entry Requirement

1. The minimum entry or admission requirement is a bachelor degree from any discipline with a Cumulative Grade Point Average (CGPA) of 2.50 on 4-point scale.
2. A student will take two years to complete the program. For each course, there will be two weeks online delivery and one-week intensive face-to-face mode of delivery. There are two semesters in each year with four courses to be completed in each semester. With one course taking one week face-to-face, students are therefore expected to spend about one month away from work in each semester at the on-site face-to-face session.
3. The tuition fee is at the website- please login to www.aua.ac.ke
4. The program is open to all- Adventist and non-Adventist, church workers and non-church workers.
5. All applications are submitted through the SID Health Ministry Director or directly to the AUA Registrar admissions@aua.ac.ke
6. We plan tentatively to begin the program on August 21, 2018.
7. See website for other details

Program Goal and Objectives

The main goal of the program is to prepare students with the necessary knowledge, skills and solid management foundation needed to manage and lead healthcare institutions. Below are the specific objectives. Those who complete the program will:

1. Demonstrate an understanding of the healthcare system and the environment in which healthcare managers and providers function.
2. Demonstrate competence in leadership and management skills to create a productive working environment within different types of healthcare organizations that support the organization's vision, mission, values, and activities.
3. Systematically diagnose the organizational environment and operations to identify needed changes and to skillfully implement those changes in ways that achieve the organization's goal(s).

4. Analyze information and systems related to continuous quality initiatives that promote improved healthcare outcomes.
5. Apply business skills and knowledge, including systems thinking of the healthcare environment.
6. Exhibit individual and organizational professionalism in their conduct with ethical standards that include a responsibility to stakeholders, a service orientation, and a commitment to lifelong learning and improvement.
